

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant :	Nicolas Ibrahim	
Applic No.:	10/553,535	Confirmation No: 5993
Filed :	December 14, 2006	Group Art Unit: 2617
For :	Radio Data Transmission Method Employing Several Different Pilot Patterns, Corresponding Base Station, Mobile, System and Reception Method	Examiner: Khan, Mehmood B.
Docket No.:	W51.21-0022	

RESPONSE TO ADVISORY ACTION

FILED ELECTRONICALLY FEBRUARY 16, 2011

Sir:

Applicant's attorney telephoned Supervisory Patent Examiner Kincaid on February 10, 2011 to discuss consideration of Applicant's request for withdrawal of premature finality, which was filed with Applicant's amendment dated November 16, 2010 but not addressed in the subsequent Advisory Action. Examiner Kincaid confirmed that the request likely was not considered and agreed that the finality of the rejection appeared premature. Examiner Kincaid indicated that he would send Examiner Khan an email message requesting the finality to be withdrawn.

Since the prior office action will be non-final, Applicant presumes that its previous submission is a complete response to the office action as to all matters and that the response dates identified in the office action have been satisfied (and do not continue to run).

Applicant awaits a new office action from the Office in which Applicant's prior amendments are considered. If Applicant's understanding is incorrect, Applicant requests that the Examiner immediately notify Applicant's attorney so that further action may be taken.

Respectfully submitted,

WESTMAN, CHAMPLIN & KELLY, P.A.
